We'd love to show you around!

Luck-E-CharM Holsteins is owned and operated by Michael and Catherine Leinbach of Barnett, Missouri. Barnett is located in Central Missouri between Versailles and Eldon. The Leinbach's have always produced high quality milk achieving the lowest SCC in the DFA central region once and first in their district six of the last ten years. They have recently built a new sand bedded free-stall facility that houses 100 cows featuring automated flushing systems, curtains, and temperature controlled fans. The new parallel double six rapid exit milking facility completes the key features of this well managed herd. Save the date and plan to spend the day with fellow breeders and industry professionals!
